Art Unit: 1636

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6, 8-15, 17-22, 31-33 and 36-39 stand, and newly added 40 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention, for reasons of record set forth in the previous Office Action.

Specifically, the instant claims stand rejected for the language “the electric field minimizes the risk for unwanted fusion of surrounding cells”, for the reasons set forth previously. At the amendment filed 6 November 2009, Applicants state that the claims have been amended.

It is noted that Applicants have amended the claims to set forth a range of electric field strengths. However, the newly cited range is not clearly the same as those filed strengths, or other properties, which would minimize the risk for unwanted fusion of surrounding cells. As noted in the previous Office Action, the concept of “minimization” is itself unclear, as zero would clearly be the minimum. Furthermore, by having possibly two conflicting ranges of electric field strengths, the metes and bounds of the claims are even less clear than before.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
